

# Hello, I'm Justas Petrulis.

## SENIOR GRAPHIC & BRAND DESIGNER

I'm a graphic and brand designer with more than ten years of experience across brand identity, marketing campaigns, packaging and illustration. I started in industrial design, and I also design and build websites when a project needs it. Google UX certified.

## Skills

### Brand & Graphic

Illustrator Photoshop InDesign After Effects

Brand Identity Campaigns Packaging

Typography Photo Compositing

### Web & UI

Figma UI/UX Design HTML5 CSS

JavaScript Responsive

### AI-assisted

OpenAI Anthropic Midjourney Adobe Firefly

### 3D

CAD Keyshot

Whatever else is needed — can be learned

## More about me

I started out in industrial design and spent most of the years since in branding, print and campaigns. I like taking a complicated idea and turning it into one clean, high-impact visual.

I care about craft and consistency — keeping a whole campaign feeling like one thing, from the big idea down to the small details other people skip.

I also design and build websites, so I understand how a brand actually behaves once it's live, not just how it looks on a page.

## Portfolio

Most primary work was in-house — B2B, under NDA — happy to walk through it on a call.

### I like building the whole thing

- Logo, brand, campaigns, coded site.
- Shopify store I designed & coded.
- Chrome extensions, public soon.
- Front-end now, backend next.
